The man and the dog ep. 3+1 more
very interesting comic!!

Special
Edition

Author: Avaneesh Kamat

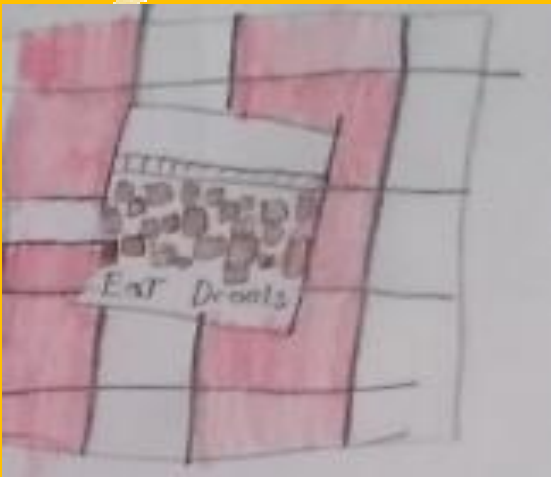

The man and the dog

Thief caught by a detective

Detective Ameen discovered a thief who stole 1 kg gold from a bank by the help of a dog. The thief is arrested and Ameen is given prize money of Rupees 1 lakh.

One day, the man read a news:

He was going to buy a packet of *case finding - drools, but was in a hurry and bought **eat drools instead of them.

The man also wanted to get prize money. So, he went to a store to buy food and a leash for the dog he was going to adopt.

Then, he went to search for a dog to adopt. A dog was in a grass field who was looking good.

*Case finding - Drools: A special kind of food for dogs which helps them solve cases for detectives.

**Eat drools - A special kind of food for dogs which helps them find food by themselves.

He adopted the dog and tied the leash to it.

He took it home and trained it. After training it, he fed it with lots of drools.

Find the 100 Rupee note I lost some days ago.

The man untied the dog and held the leash in his hand. The dog took the man on a footpath where there was some sand.

It found a bone in the sand!

This must be a clue
to find my 100
Rupee note.

The man dropped the leash from his hand.

The dog started chasing the man.

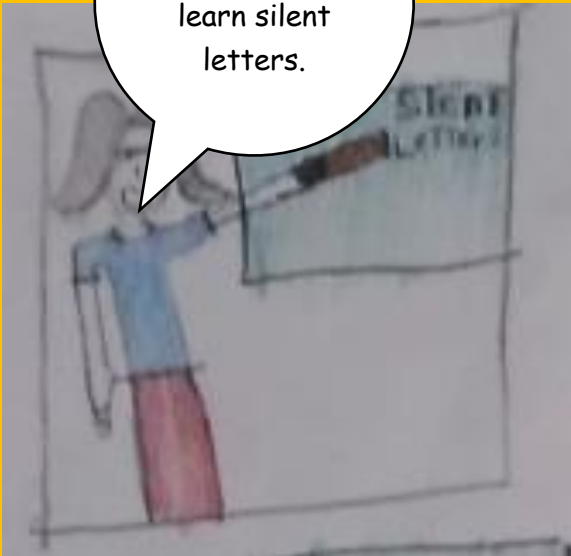

The dog took the bone and ran away.

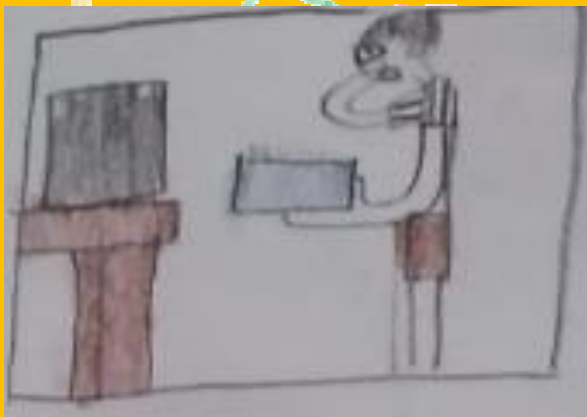

*****The End*****

Silent letters

Children,
today we will
learn silent
letters.

One day, in a school:

Rohan thought that the H of heat is silent
and ate the teacher's food.

Ma'am you told
me to eat it.

Why did you
eat it?

Sorry ma'am

The teacher understood what was happening.

At the lunch break:

Rohan, will you please
go near the staff room
and heat my lunch box?

In that class, there was an obedient boy whose
name was Rohan.

Where is
my food?

Ma'am I
ate it.

The H of
heat is
not silent!!

*****The End*****
